

## TOOLBASE Control AR-19 600 Professional

With its maximum payload of 600 kg, the TOOLBASE Control AR-19 600 was specially developed for the provision of cutting tools.

Three fixed drum versions exist, as well as the option of one-time configuring the drum to meet individual customer requirements, opening up almost unlimited application possibilities for industrial use. A maximum of 740 (standard) to 1,140 (special version) compartments on 19 levels are possible. Supported by the CORE software and a sliding door, only the previously selected item is made available to the user. In this way, tools are available close to use at all times.

The TOOLBASE Control AR-19 600 is also ideally suited for the individual dispensing of C-articles.

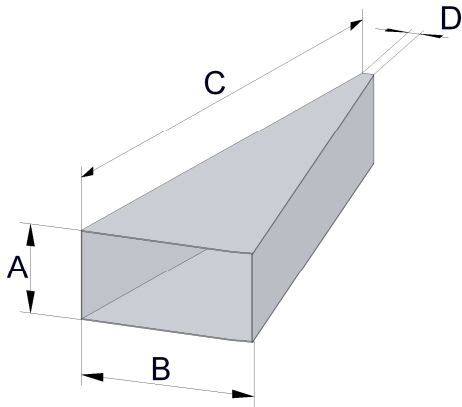

Standard color: RAL 7012 basalt gray matt

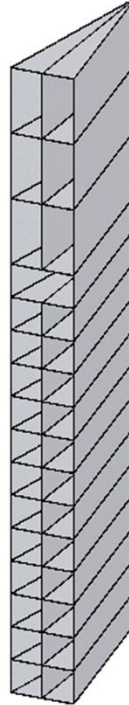

Technical data:	
Depth	1,025 mm
Width	985 mm
Height	1,980 mm
Withdrawal	Individual sampling, automatic control
Number of compartments	560 – 740 compartments (depending on configuration)
Tare weight // Payload	695 kg // Up to max. 600 kg (depending on configuration)
